WELCOME

We are located inside a cellar for the vinification of grapes from the vineyards owned by the Morone family. The vineyards are cultivate according to the principles of enhancing the fertility of the soil in full harmony with nature and with the purpose of producing authentic and territorial wines. An organic certification and membership in even more restrictive associations of organic (in our case Vignaioli e territori, Vi.te) inspire us in the processes both in the vineyard and in the cellar.

A visit to the cellar and a taste of wines, if appreciated, will make the guest feel welcomed as if he were at home where the vineyards and wine represent a continuum not only with the food but also with our lived.
